Stargazing with boyfriends

by Blakartoffel

Summary

Martyn is alone stargazing when his boyfriends join in.

Notes

I might've found this ship a while ago, might've already had a friend write for it because of me, might even have a finished draft laying around...

Either way here's an drabble for them, because every ship needs some random short stuff so you can discover them through the most random tags.

Martyn had been camping for a while, the server was still new, everyone was busy and he was only visiting.

He was stargazing when Skizz appeared behind him, startling the blonde. “Long time no see.” Martyn said.

“Too long, yeah,” Skizz joked, laying down next to him.

Not long after, Ren appeared.

“Don't leave me out my dudes,” He said, joining in.

Before Martyn knew it he was getting cuddled from both sides.

Recently he struggled with nightmares, but that was no problem now. Falling asleep easily, nobody speaking, there was no need, simply enjoying each other's presence was enough.
