Butterflies inside me

by Melancholia

Summary

He thought he had lost so much of himself when Julia died, he never expected anyone let alone Anastasia Hardy those things back

He's in love.Not since Julia has Jameson felt like this about anyone. He thought he would only ever be in love, true deep love once.

Anastasia Hardy gives him butterflies every time he thinks about her. He felt ridiculous about a man of his age going around like a schoolboy with his first crush.

But he can't shake off his feelings. The desire to keep her safe, to show her his softer side. Not that anyone would believe he has a side like that. Jameson thought it had gone when he lost Julia, but Anastasia had brought it back.
